Joseth Calderon Corredor

Desarrollador Frontend

Cellphone: 3163589233
Email: josethcalderon266@gmail.com

PERSONAL DESCRIPTION

Passionate and self-taught Frontend Developer with 2 years of experience. Expert in JavaScript, React, HTML, and CSS. Leader in startups, participation in hackathons. Strong skills in Git. Committed to continuous professional and academic growth.

SKILLS

- Expert JavaScript and React Developer with standout skills in creating functions, loops, arrays, and objects. Specialized in efficiently manipulating the DOM for seamless user interfaces. Professional experience in API calls for effective communication with the backend. Capable of building advanced web applications with seamless integration between frontend and backend.

- Developer with mastery in HTML and CSS, specializing in crafting responsive and aesthetically striking interfaces. Experienced in implementing preprocessors like Stylus and libraries such as Tailwind to optimize efficiency and flexibility in development. Meticulous focus on web design, contributing aesthetic and functional solutions for exceptional user experiences.

- Professional with strong skills in effective Git management, excelling in mastering commands for precise maintenance and skillful handling of files in the console and repositories. Meticulously focused on version control, ensuring integrity and efficiency in project management, facilitating collaboration, and ensuring a smooth workflow.

- English proficiency at B2 level, enabling effective communication and comprehension. Basic German skills at A1 level, understanding basic phrases both orally and in writing. Currently, dedicating efforts to advance my German studies with the goal of reaching B2 level this year, demonstrating my commitment to linguistic skills in multicultural environments.

WORK EXPERIENCE

BienestarTu

CTO

01/10/2023 - Present

At BienestarTu, I led the development and maintenance of the website, using noCode tools and frontend programming with React, Tailwind, and HTML. Additionally, I played a key role in administrative decisions and participated in hiring processes, contributing significantly to the growth and success of the startup.

Hackathon Solana

Frontend Developer

17/02/2024 - 18/02/2024

In the Solana Hackathon, I took on the key role of a frontend developer during 24 intensive hours of development. My focus was on creating an appealing graphical interface using React.js and Sass. Although our project didn't make it to the top three, it caught the attention of two judges, paving the way for the evolution of QuantumSapiens as an actively developing professional project. This challenge not only enhanced my technical skills but also marked the beginning of an exciting phase in my career.

Tu Amigo En Casa

Frontend Developer

10/03/2023 - 01/11/2023

In my prominent role at Tu Amigo en Casa, I led the complete development of the website, merging design and development skills. I utilized tools like Figma to craft visually appealing designs and, from scratch, implemented frontend construction with JS, Stylus (CSS preprocessor), and HTML. This holistic approach, combining my abilities as a Frontend developer and UX/UI designer, resulted in a successful and highly satisfactory website for the client.

Hackathón Chainlink

Frontend Developer

08/11/2023 - 10/12/2023

My participation in the Chainlink Hackathon was a pivotal opportunity to broaden my knowledge in blockchain development, with a notable emphasis on Solidity. I collaborated closely with a team of 5 individuals in constructing the project, employing technologies such as React, CSS, HTML, and Solidity. Despite not securing a top prize, we received acknowledgments from prominent sponsors like Scroll and Tableland.

ACADEMIC TRAINING

School Frontend with React.js

Performing

Leveraging the various tools that React provides developers professionally and successfully implementing design tools such as CSS, SASS, or Tailwind are crucial for achieving positive and satisfactory outcomes in the creation of complex web applications.

HTML and CSS Learning School

2024

I successfully completed the HTML and CSS School at Platzi, excelling in the expert use of Tailwind and Sass to develop professional and scalable styles. The comprehensive training covered everything from the basics of HTML and CSS to advanced techniques in animation and responsive design. Specializing in building robust structures with HTML, I ensure effective SEO optimization. Focusing on Tailwind as a wireframe and Sass as a preprocessor expanded my skills, preparing me for challenges in modern web design. This experience has strengthened my professional foundation, equipping me to excel in web development.

Git and Github Professional Course

2022

This course allowed me to master version control with Git. I acquired key skills to perform various actions in GitHub repositories, both remotely and locally. This intensive program covered everything from fundamentals to advanced techniques, providing me with essential tools to effectively manage development and collaboration in projects using Git and GitHub.

Evolve Your English

2021

I achieved a comprehensive mastery of both passive and active skills in the English language. This program equipped me to express myself confidently in speaking, listening, writing, and reading in English. The approach covered both receptive and productive skills, enabling me to use the language effectively in various communicative situations.

INEC Instituto Educativo Comercial

2020

Completion of my academic high school education.
